

Hands On 08

Perguntas:

1 - Projetar o primeiro nome e o último nome dos atores que são diretores;

```
SELECT actors.first_name, actors.last_name
FROM actors
JOIN directors ON (actors.first_name = directors.first_name AND actors.last_name =
directors.last_name)
```

2 - Projetar o primeiro nome e o último nome dos atores que não são diretores;

```
SELECT actors.first_name, actors.last_name
FROM actors
LEFT JOIN directors ON (actors.first_name = directors.first_name AND
actors.last_name = directors.last_name)
WHERE directors.first_name IS NULL
```

3 - Projetar o primeiro nome e o último nome dos atores e diretores;

```
(SELECT actors.first_name, actors.last_name
FROM actors)
INTERSECT
(SELECT directors.first_name, directors.last_name
FROM directors)
```

4 - Projetar o nome dos filmes que não são dirigidos por nenhum diretor;

```
SELECT movies.name
FROM movies
LEFT JOIN movies_directors ON movies_directors.movie_id = movies.id
WHERE movies_directors.director_id IS NULL
```

```
SELECT  actors.first_name,  actors.last_name,  COUNT(roles.movie_id)  AS
qnt_papeis
FROM actors
JOIN roles ON actors.id = roles.actor_id
GROUP BY actors.first_name, actors.last_name, actors.id
HAVING qnt_papeis < 2
```
